

WHO WE ARE

Solving business problems with holistic IT solutions & local support

About IntegraONE

Our Mission

IntegraONE was founded on the idea that IT solutions can be designed, implemented, and supported better by people who genuinely care about what they do and enjoy solving problems. Our focus on nurturing long-term relationships with clients makes it all the more satisfying to work together over the years to meet your business's evolving needs.

We don't just deliver products and packages; we design intelligent IT solutions that meet clients where they are now and plan ahead for the future they want.

Our Story

IntegraONE was founded 30 years ago for a simple reason: we knew we could provide a better customer experience and more localized service than our competitors. That's how we started attracting clients, but we've been able to build lasting client relationships (25+ years in some cases) thanks to our focus on meaningful solutions that keep the end user in mind.

Today, we have 5 offices serving Pennsylvania and the surrounding states to keep those local ties strong and ensure rapid response time for clients with on-site needs.

Working for a business of any size, you know how difficult it can be to compete in today's highly competitive market. Our solutions minimize downtime, solve day-to-day issues, provide database support, disaster recovery, and much more.

- Security Technologies
- Data Center Server and Storage
- Unified Communications
- IoT (Internet of Things)
- Network Infrastructure
- Cloud Services
- Managed Services
- Technical Repair Services

Our Core Values

Our Commitment to Our Employees

After three decades of serving businesses across the region, we've learned that the curiosity and dedication of our team is the key to providing the kind of solutions and service that set us apart.

Commitment to Our Clients

It all starts with listening. We take the time to understand what constitutes a bulls-eye for every client, and then work hard to hit the target. We believe our success is our clients' success.
